

## Paving Progress on Segment 3

- Segment 3 runs from the intersection of State Road 79 (Arnold Road) and Panama City Beach Parkway/U.S. 98 south to Front Beach Road. It also includes Front Beach Road from Cabana Cay Circle east to Lullwater Drive.
- Earlier this month, the Contractor paved travel lanes on the south side of Front Beach Road. Paving will continue in phases and there will be a final layer of asphalt placed along the entire project corridor as it nears full completion.
- Additionally, the Contractor has installed conduit near Lullwater Drive. Utility coordination with WOW, UNITI, AT&T and COMCAST continues.
- Paving and utility coordination is great progress toward the overall completion of this segment, anticipated mid 2025.

## Segments 4.1, 4.2, 4.3 and Powell Adams Road

- **Segment 4.1** includes the section of Front Beach Road from Lullwater Drive, where Segment 3 ends, to east of Hills Road and includes Powell Adams Road.
- **Segment 4.2** includes the section of Front Beach Road from east of Hills Road, where Segment 4.1 ends, to west of Lantana Street.
- Segments 4.1 and 4.2 are joint projects and the team is working through final utility coordination and permitting processes before the projects are put out to bid.
- **Segment 4.3** includes the section of Front Beach Road from Hutchison Boulevard to west of Richard Jackson Boulevard. The team is working on right-of-way acquisition at this time.
- **Powell Adams Road**, from Stingray Drive south to Front Beach Road, will be constructed at the same time as Segment 4.1. St. Joe Company is being worked with on these plans to address traffic impacts from the future TopGolf development.
- All of these projects will consist of roadway upgrades such as updated stormwater retention and medians, an additional roadway lane east/west and improved pedestrian safety with new lighting and sidewalks.

## Alf Coleman Road

- This safety and rehabilitation project includes limits from Hutchison Boulevard north to Panama City Beach Parkway.
- The construction team is currently discussing a schedule to mill and repave the road for improved ride quality.
